# Assemblyman Gilmore is selling out middle class families

## **YOU PAY HIS SALARY - HE TAKES YOUR RIGHTS**

Newly elected Assemblyman Danny Gilmore has already started cashing in:

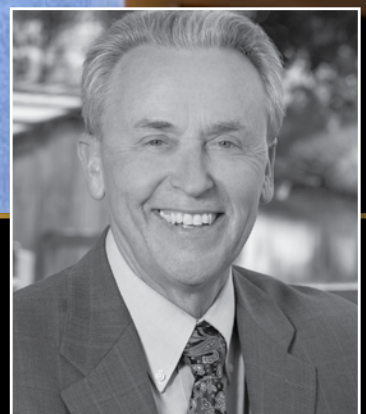

- **Gilmore is paid a \$116,000 taxpayer funded salary plus benefits**
- **He takes a tax-free per diem - \$173 per day - boosting his salary by \$30,000**

As California faces an epic budget crisis, Danny Gilmore is holding millions of middle class families hostage to secure a sweetheart budget deal for a few corporate CEO's. Gilmore's budget deal would:

- **Abolish the state law requiring corporations to pay you overtime when you work more than 8 hours**
- **Allow corporations to take away your right to a lunch break**

Right here in California, corporations are getting bailed out with our tax dollars – but Danny Gilmore's refusal to pass a state budget means that the state won't pay tax refunds to seniors and families.
