Overtime compensation Sec. 73. Every State employee compensated on a monthly basis required and ordered to work in excess of a normal work week as established by the State Personnel Board for the class of his position, shall receive overtime compensation based on his regular rate of pay for all such overtime; provided, that no overtime compensation shall be paid on any portion of an employee's regular rate of pay in excess of two hundred fifty dollars (\$250) per month.

Restriction Normal work week Within 90 days of the effective date of this section, the State Personnel Board shall for each class in the State service for which a monthly salary range is fixed determine and establish

For purposes of determining eligibility for overtime compensation, the State Personnel Board shall allocate, and reallocate as the needs of the service require, each State civil service class for which a monthly salary range is fixed into one of the following groups:

Group allocation

- (1) Classes with a normal work week of 40 hours;
- (2) Classes with a normal work week of 44 hours;
- (3) Classes with a normal work week of 48 hours;
- (4) Classes which can not be included in any plan of payment for overtime because:

(a) While requiring at least 40 hours per week, the duties and responsibilities are such that they do not adapt themselves to a maximum number of hours per week;

(b) The performance of duties is required on a part-time or intermittent basis and does not amount to a maximum of 40 hours per week.

Nothing in this act shall be construed as prohibiting the granting of compensating time off in lieu of overtime worked where such compensating time off can be granted within 30 days of the date worked and where it can be granted without impairing the services rendered by the agency. Sec. 3. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health, and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting said necessity is as follows:

Urgency

During the present emergency, lack of manpower has demonstrated the necessity of immediately making some provision for the payment of overtime to State employees in order that their services may be utilized over and above the presently established normal work week. Unless their services can be used, it will be necessary to attempt to obtain much less experienced help from other sources, with the result that the cost of services rendered will be greatly increased. It is for the best interests of the State service that this act therefore go into effect immediately.

In Re: Assembly Bill 292

Dear Mr. Vasey:

This will acknowledge receipt of your communication of July 1, 1947 to Mr. Sam G. Hanson, in which you ask for the recommendation of the California State Employees' Association on Assembly Bill 292.

The California State Employees' Association caused legislation to be introduced in this session of the Legislature by which the forty hour week could be established for all employees where comparable work in other public agencies and private employment is already established on a forty hour week basis. An Interim Committee of the Assembly under the Chairmanship of Assemblyman Dwight H. Stephenson studied this problem of uniform working hours and a forty hour week for State employees and recommended that the State adopt the uniform forty hour week for its employees. This report will be found commencing on page 20 of the Assembly Journal of April 23rd, a copy of which I am enclosing herewith for your convenience. You will observe that this report contains a copy of a communication from the State Personnel Board to Governor Warren as of January 31, 1947, discussing the hours of work of the various State employees. This report of the Personnel Board clearly shows that a large number of State employees are working a number of hours in excess of the prevailing practices for like work.

*"Serving the People Who Serve the People"*

The Legislature passed two bills which, if signed by the Governor, will enable the Personnel Board to properly establish uniform working hours for State employees. These bills are Assembly Bill 292 and Assembly Bill 941. Both bills were sponsored by the California State Employees' Association and were passed by the Legislature as companion bills in connection with the forty hour week program. Both bills were the result of cooperative studies and conferences by the State Personnel Board, Department of Finance, the Legislative Auditor's Office and the California State Employees' Association. Both bills were approved by the aforementioned groups and both bills were unanimously passed by both Houses of the Legislature.

I am attaching hereto the explanation for Assembly Bill 292 that was used in presenting the bill on the floor of the Senate and Assembly.

I am also attaching a copy of an explanation of Assembly Bill 941 which is the appropriation bill by which any reduction in hours can be financed.

The California State Employees' Association respectfully urges that Assembly Bill 292 and Assembly Bill 941 be signed.

If, for any reason, Governor Warren believes that either of these two bills should not be signed, I hereby respectfully request a conference with Governor Warren on the subject prior to any action by the Governor which would result in a veto of either of these bills.

Very truly yours,

EXPLANATION OF ASSEMBLY BILL 292

There is no opposition to this bill. The amendments have been approved by the State Personnel Board, the Legislative Auditor, the Department of Finance and the California State Employees' Association.

The combined effect of the amendments to Section 18020 and 18021 is to give the Personnel Board complete flexibility to make proper and equitable reduction in the working hours of State employees when such reduction is necessary to bring them into line with prevailing practices in private industry and other public agencies. The amendments permit the Board to establish overtime rates of pay at less than straight time if the lesser rate is found to be proper and administratively desirable. The Board cannot however, provide for overtime pay at a rate greater than straight time.

The amendment to Section 18023 extends the time in which compensating time may be granted in lieu of cash payment of overtime from the present six months to twelve calendar months.

SECTION 1. Section 18020 of the Government Code is amended to read:

18020. It is the policy of the State that the workweek of the state employee shall be 40 hours, except that workweeks of a different number of hours may be established in order to

meet the varying needs of the different state agencies. It is the policy of the State to avoid the necessity for overtime work whenever possible. This policy does not restrict the extension of regular working hour schedules on an overtime basis in those activities and agencies where such is necessary to carry on the state business properly during a manpower shortage.

SEC. 2. Section 18021 of the Government Code is amended to read:

18021. For each class or position for which the State Personnel Board establishes a monthly or annual salary, the board shall establish and adjust workweek groups and shall assign each class or position to a workweek group. The State Personnel Board, after considering the needs of the state service and prevailing overtime compensation practices, may establish workweek groups of different lengths or of the same length but requiring different methods of recognizing or providing compensation for overtime.

SEC. 3. Section 18021.5 of the Government Code is added, to read:

18021.5. The State Personnel Board shall provide the extent to which, and establish the method by which, ordered overtime or overtime in times of critical emergency is compensated. The board may provide for cash compensation at a rate equal to or less than the regular rate of pay, and the rate may vary within a class depending upon the conditions of work, or the board may provide for compensating time off. The provisions made under this section shall be based on the practices of private industry and other public employment, the needs of state service, and internal relationships.

STATE OF CALIFORNIA

Inter-Departmental Communication

To: Honorable Goodwin J. Knight  
Governor of California  
State Capitol  
Sacramento, California

Date: June 21, 1955

File No.

Subject: Assembly Bill  
No. 1464

From: Office of The Attorney General  
Department of Justice

Paul M. Joseph  
Deputy Attorney General

This bill amends Sections 18020 and 18021 of the Government Code and adds Section 18021.5 to that code, all dealing with days and hours of work of State employees. The amended sections are recast. Section 18020 now provides that the State Personnel Board shall classify civil service and exempt positions with a monthly or annual salary into four designated work week groups. This bill does away with the four classifications and gives broader work week classification authority to the Board with respect to those positions or classes for which the Board establishes a monthly or annual salary (i.e., principally civil service positions) to be exercised by Board rules. At present, Work Week Class 4, in which are placed various positions designated as unlimited as to hours or otherwise not requiring a set number of hours, requires "unusual conditions or hours of work" and some question has been raised as to the authority of the State Personnel Board to place higher paid managerial and journeymen employees in this work week group on the basis of higher salary alone, without any other "unusual" conditions. To obviate this, and probably other objections, these amendments are made by this bill.

The bill also sets forth a statement of State policy 1) that State workers shall be employed forty hours a week, except that to meet the varying needs of the different State agencies workweeks of a different number of hours may be established, 2) to avoid the payment of overtime, 3) except during a manpower shortage.

The new section 18021.5 incorporates parts of the existing section 18021 in changed form and gives the State Personnel Board authority to determine the extent to which, and the method

by which, 1) ordered overtime and 2) overtime in times of critical emergency are to be compensated; that the Board may provide 1) cash compensation equal to or less (nothing is said about greater) than the regular rate of pay, which rate may vary within the same class or 2) for compensating time off. The provisions made by the Board under this new Section 18021.5 "shall be based on the practices of private industry and other public employment, the needs of State service, and internal relationships".

Title satisfactory.

No legal objections.
