Subject: From One Obama Voter to
Another - Yes on Prop 10

To: 

From One Obama Voter To Another

On November 4th, we will go to the polls and make history. Senator Obama has called for a \$15 billion investment in alternative energy. **You can support the Obama Energy Plan by voting YES on Proposition 10.**

Proposition 10 will fundamentally change the way we use energy.

- Proposition 10 will invest in enough renewable energy from solar and wind energy to power 830,000 California homes.
- Proposition 10 will help to break our addiction to foreign oil by providing incentives to get old polluting vehicles off our roads and replacing them with vehicles that run on clean alternative fuels produced in America.
- Proposition 10 will invest in research and technology to make California the world leader in green technologies and further expand the horizons of our renewable energy future.

Vote for change on Tuesday, November 4th – vote YES on Proposition 10.

Allison Hart, Executive Director

YES on Proposition 10
